

Cloud Security

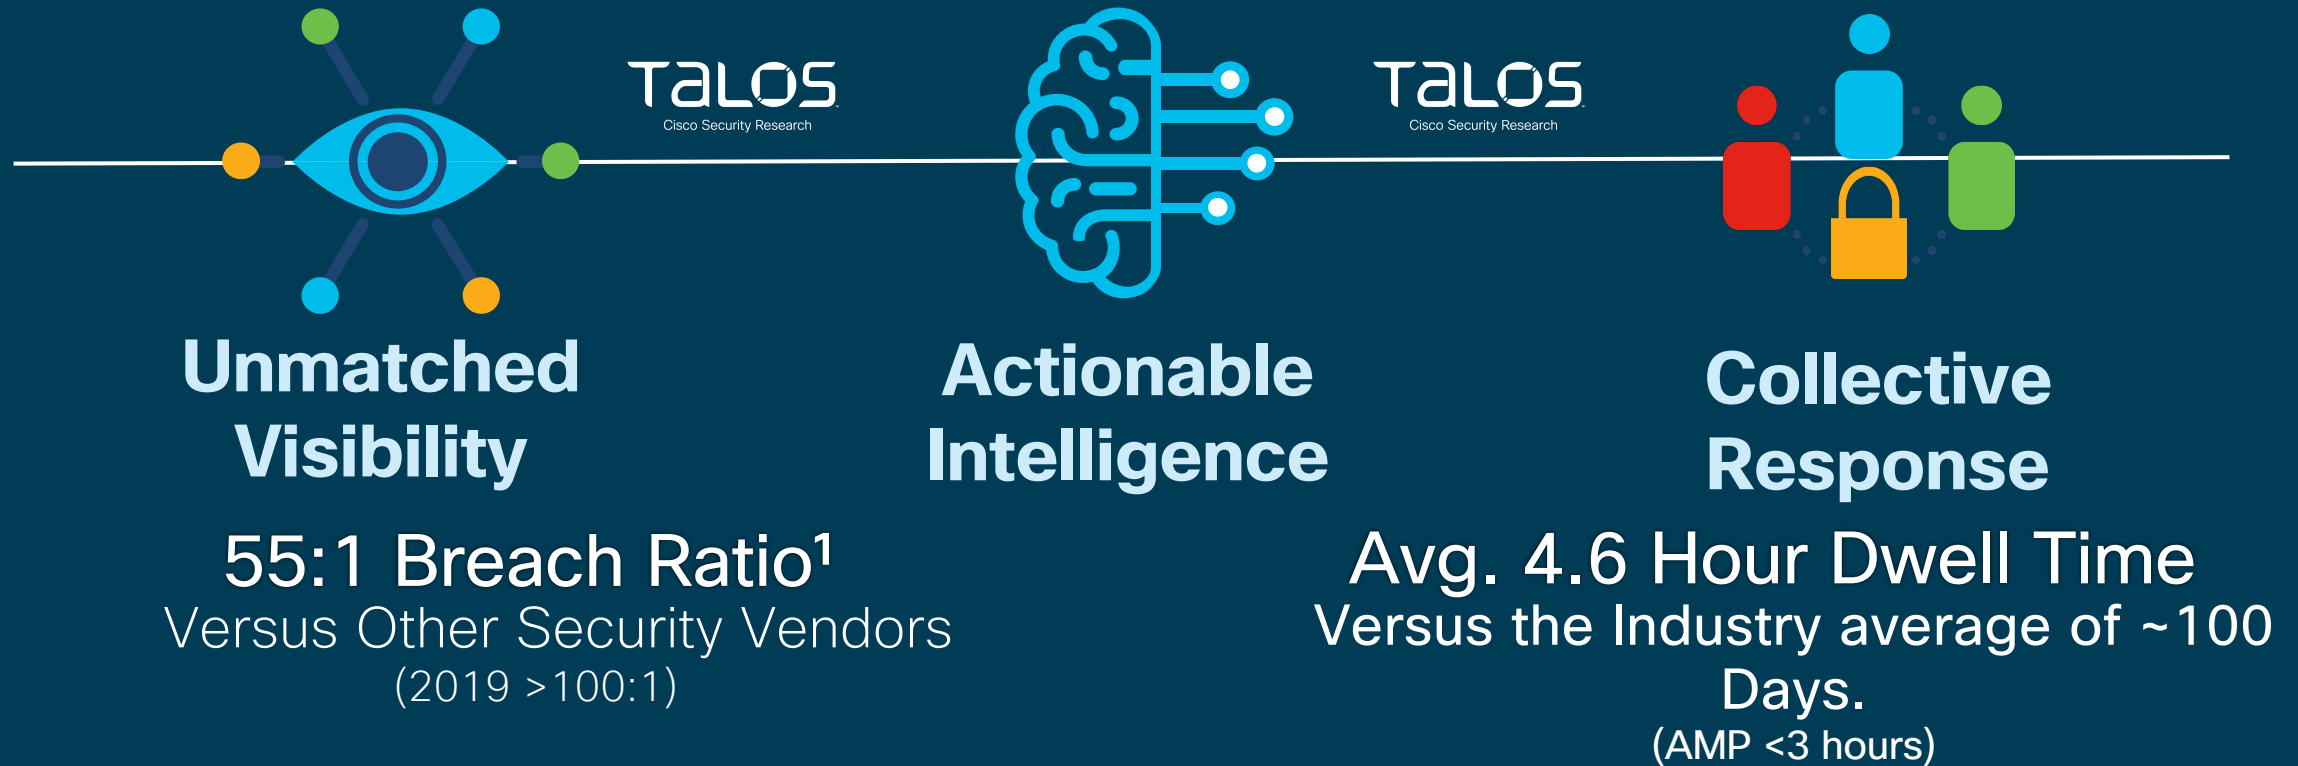

Cloud - dobrý sluha nebo zlý pán?

Milan Habrcetl, Cisco CSS, CZ+SK
mhabrcet@cisco.com

Modern Security Architecture

Cisco Cybersecurity is 'Threat Intelligence Focused'

Protection Before Day0

In 2018, Cisco Talos eliminated over 365 new vulnerabilities from the market BEFORE a day0 attack could be weaponized

TALOS
Cisco Security Research

Unmatched Visibility

To stop more, you have to see more.

- The most diverse data set
- Community partnerships
- Proactively finding problems

2.2 Trillion Artifacts Seen Daily

1.9 Trillion Email artifacts

175 Billion DNS Entries

47 Billion Web requests

70 Billion Network Flows (includes Cognitive)

189 Million File Artifacts (14M never-before-seen)

100 Million new detection events

500 Million Authentications (per month)

Actionable Intelligence

Security controls are best served by data that lets tools respond to immediate threats.

- Rapid coverage
- Distillation and analysis
- Threat Context

It's not detect and forget, it's detect and analyze.

Protection already Delivered
By the time the first blog hits the wire

Coverage

Additional ways our customers can detect and block this threat are listed below.

PRODUCT	PROTECTION
AMP	✓
CloudLock	N/A
CWS	✓
Email Security	✓
Network Security	✓
Threat Grid	✓
Umbrella	✓
WSA	✓

Advanced Malware Protection (AMP) is ideally suited to prevent the execution of the malware used by these threat actors.

CWS or WSA web scanning prevents access to malicious websites and detects malware used in these attacks.

Email Security can block malicious emails sent by threat actors as part of their campaign.

Network Security appliances such as NGFW, NGIPS, and Meraki MX can detect malicious activity associated with this threat.

AMP Threat Grid helps identify malicious binaries and build protection into all Cisco Security products.

Umbrella, our secure internet gateway (SIG), blocks users from connecting to malicious domains, IPs, and URLs, whether users are on or off the corporate network.

Open Source Snort Subscriber Rule Set customers can stay up to date by downloading the latest rule pack available for purchase on [Snort.org](https://www.snort.org).

Collective Response

The ability to bring rapid protection to close off multiple attack vectors instantaneously is crucial

- **Breadth:** See once, protect everywhere
- **Depth:** Response and interdiction drives continuous research
- **Scale:** Delivering portfolio-wide protection, in real-time

10.5 Billion Daily Responses

6.5 Billion rejected emails

1.4 Billion DNS blocks

2.6 Billion URL Blocks

1 Million malicious file blocks

100 Thousand new file convictions

100 Million Vulnerability-Exploit events
