Empowering
yourself in the
future of open
banking

Are you in a false sense of security?

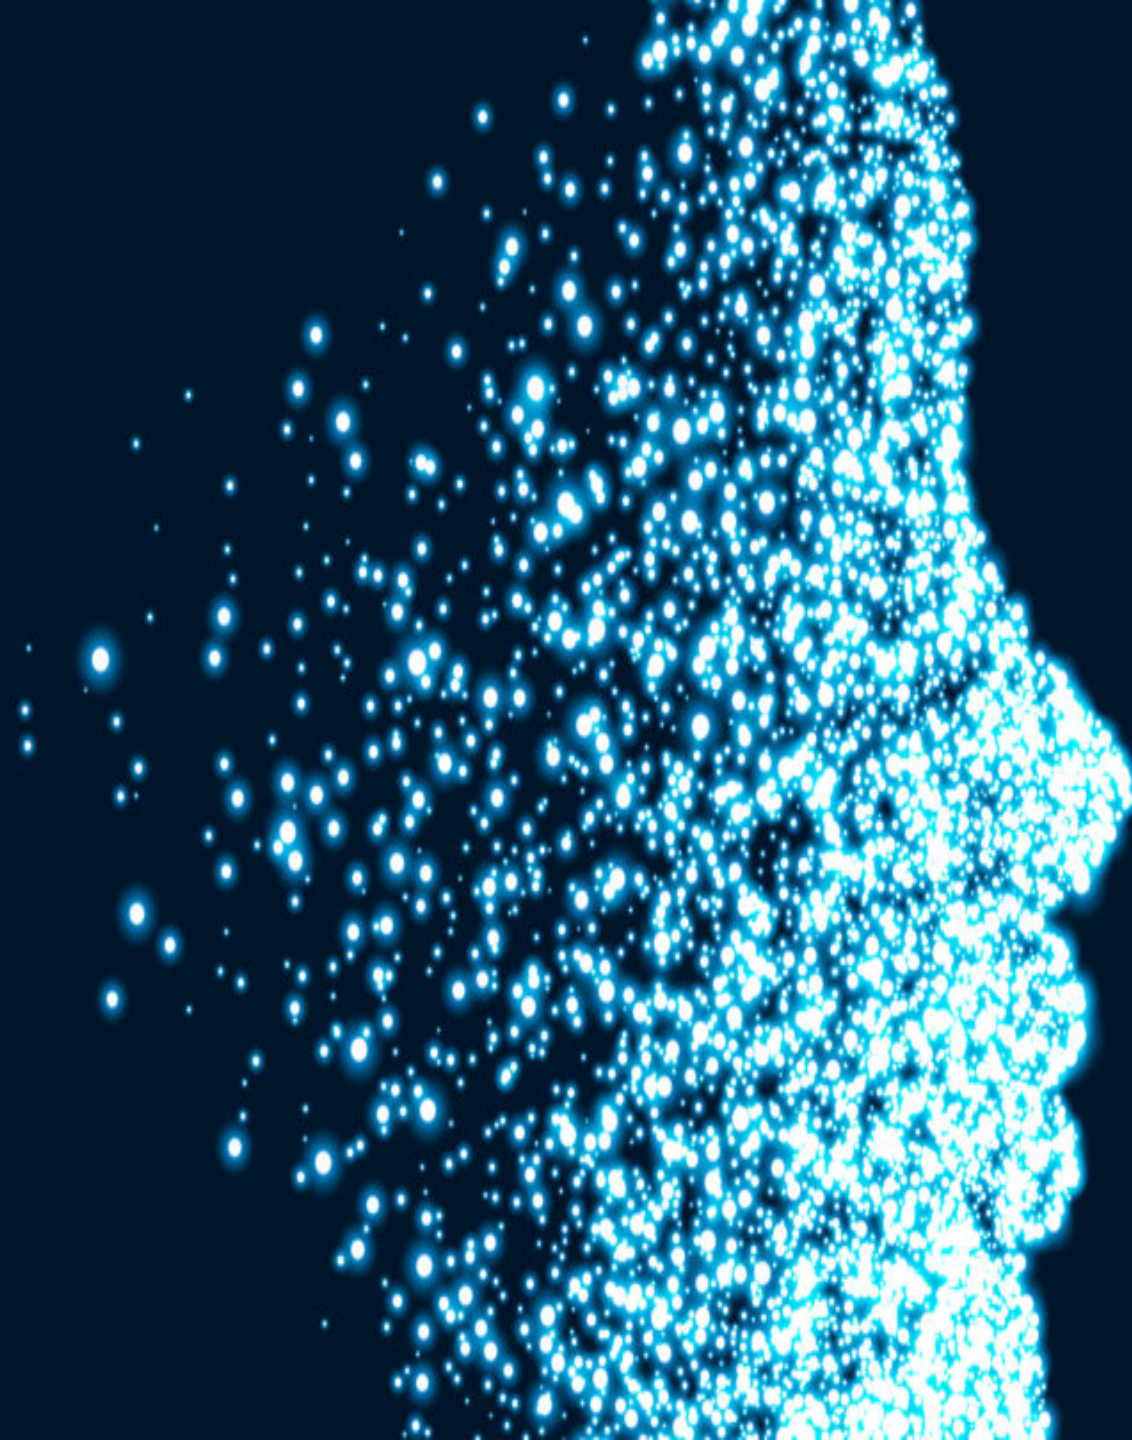

Some advice for ultra-secure protection

Eliminate OTPs and any kind of
passwords

2 way, out-band-communication

Asymmetrical encryption, avoiding
shared secrets

Proprietary biometric technology

Covr Security

- Founded by Peter Alexanderson
 - developer of the concept of the Swedish national standard for digital authentication
 - 20 years of experience of digital ID
- HQ in Sweden
 - operations in Europe, Middle East and South East Asia
